International Journal of Computational

Intelligence in Control

*Special Issue on **Artificial Intelligence***

Special Issue on *Artificial Intelligence* is dedicated to the rapid dissemination of important research results to the global artificial intelligence (AI) community. The journal's scope encompasses all areas of AI, including agents and multi-agent systems, automated reasoning, constraint processing and search, knowledge representation, machine learning, natural language, planning and scheduling, robotics and vision, and uncertainty in AI.

Articles published in **Special issue** must meet the highest quality standards as measured by originality and significance of the contribution.

Submit your article to Editor at : **patnaik_srikanta@yahoo.co.in**

Important Dates

Last date for submitting the article:	30th November 2020
First Review:	07th January 2021
Final Review:	30th January 2021
Publications:	15th February 2021

Author Guidelines:

Please send your paper as a single document including tables and figures. This means, it should be one Microsoft Word file ... AND NOT a zipped File containing different files for text, tables, figures, etc. The paper submission should confirm the following:

Covering letter: A cover letter must accompany the manuscript as a part of an e-mail message. A covering letter should identify the person (with address, telephone numbers and email address) responsible for correspondence concerning manuscripts.

Paper should contain the title, author(s) name, affiliation(s), mailing address, email

Abstract describing the context and scope of the paper

Keywords

Computing Classification System (CCS) : (The information about the ACM Computing Classification System - available at https://www.acm.org/publications/class-2012)

All pages should be without page number, header Text and footer text

Abstract

Research papers should be accompanied by an abstract, which will appear in front of the main body of the text. It should be written in complete sentences and should summarize the aims, methods, results and conclusions in less than 250 words. The abstract should be comprehensible to readers before they read the paper, and abbreviations citations and mathematical equations/notations should be avoided.

Authors are responsible for the accuracy of manuscript and references. Example as follows: -

Levin, S.A., Grenfell, B., Hastings, A., and Perelson. A.S. 1997, *Mathematical and Computational Challenges in Population Biology and Ecosystem Science, Science*, 275, 334-343.

Tables should be self-explanatory and should include a brief descriptive title. Illustrations should be clearly lettered and of the highest quality. Acknowledgements and Footnotes should be included at the end of the text. Any footnote should be identified by superscripted numbers.
